

# Find what you're looking for faster

## Our adviser website is evolving.

The main features will remain the same and how you place business won't change. It's simply easier and faster to find what you need – with streamlined navigation. The new adviser site will be live from 21 September. Here's an overview of the changes.

### Enhanced navigation

Thanks to your feedback we've managed to ensure that when you need information you'll be able to find it – quickly. It will be easier for you to find information about our products, support and resources - even after you've logged in.

### At a glance

- My Clients is easily available from the My Services home page.
- Protection and Platform Quote and Apply also easily available.
- Simple access to Aviva Platform and Aviva Life Protection Solutions (ALPS).
- Introducing a My Services menu containing key service links, available from any page after login.
- The Fund Centre will be called the Investment Centre, though it will still feature the same funds, performance info, factsheets and charting tool.
- A more intuitive Document Library – available in Resources.
- Product information and resources easily available from the navigation – even after you've logged in.

## Works on every device

Whether you're working from home or in the office, our new adviser website is easy to use. Whatever device suits you – laptop or tablet – it's been tested to make sure each device works with the others, seamlessly and securely.

## Uncluttered design and fuss-free

We've streamlined the design of the home pages, My Clients, Product information and resource sections so they are easy to use. Important information and service options are clearly shown.

You can see announcements and support information whenever you log in – so you won't miss important product changes, resource or service updates. The colour scheme and graphics have also had a welcome refresh.

### Log in

The new adviser site will be live from 21 September. You'll need to enter your current login details to get up and running, so please make sure you have them ready to hand. You'll need your 10 digit online account number (OAN) and your password, or your Unipass if it's easier. Just accept the new website Ts & Cs the first time you log in.

### We're here for you

If you have any questions please get in touch with your usual contact at Aviva. They'll be happy to help.
