

# Aviva Pension Smooth Managed Fund

## How would the fund have performed over the past five years?

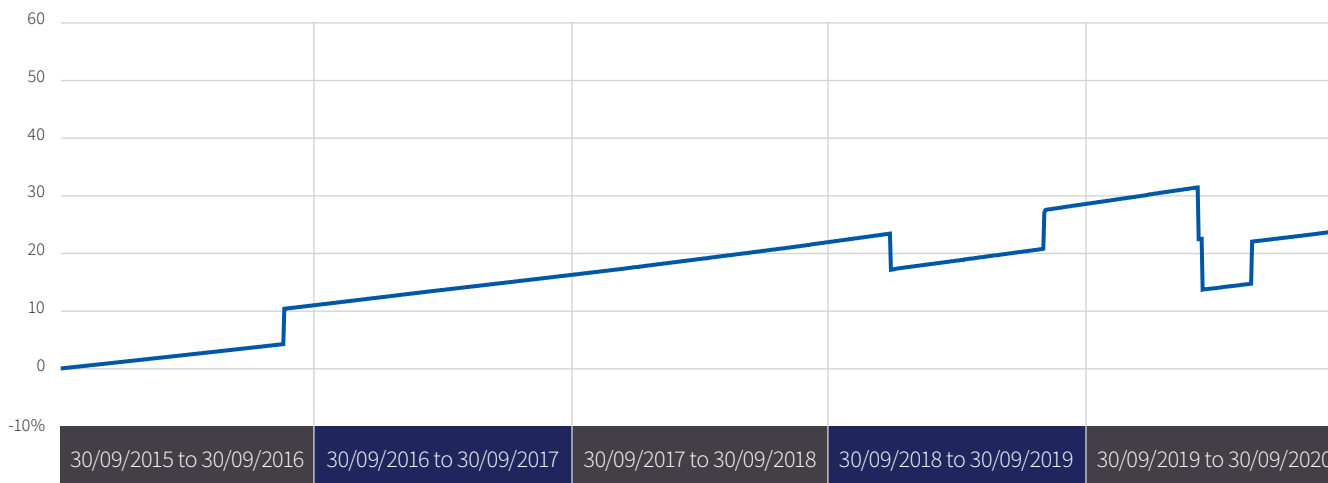

The chart below shows how the Smooth Managed Fund would have performed from 30/09/2015 to 30/09/2020. Because the fund launched on 12/12/2017, the performance shown previous to this date is simulated performance based on the assets which might have been held within the Smooth Managed Fund over the last five years.

The performance shown is after the fund charge of 0.65%, but before any product charges. Charges for the Pension Portfolio would have reduced the performance shown below.

### Year on year performance

Aviva Pension Smooth Managed returns over the last five years – from 30/09/2015 to 11/12/2017 the past performance is simulated and from 12/12/2017 to 30/09/2020 the past performance is actual.

- Source – Financial Express Analytics, as at October 2020.
- Past performance is not a guide to future performance.
- Basis is bid to bid.
- Investments can go down as well as up in value, and your client may get back less than they invested.
- The performance shown is after fund charges have been applied. Any product charges and adviser fees paid would also reduce the amount received.
