

Looking for a new home can be an exciting and busy time.

Finding the right place and organising your move is a lot of work. At the end of the day though your new place is much more than a roof over your head, it's your home.

Now's a great time to think about your finances and make sure you've got the important things covered.

An **ongoing or permanent loss of income** can have a big impact on your ability to pay your rent and other monthly outgoings, so **it makes sense to think and plan ahead.**

What would happen if you **couldn't work** because you were **injured, or seriously ill or worse?**

Would it mean **giving up the things that make life special** - like meals out, family excursions, holidays and gym or sports club memberships? Would you have to move?

Aviva offer a range of protection options that can help safeguard your income, lifestyle or financial future if you are injured, become seriously ill or die.

Income protection pays a proportion of your income each month if you can't work and lose earnings due to illness or injury, during the policy term.

Critical illness pays a cash benefit amount if you are diagnosed with, or have surgery for, one of the critical illnesses defined by the plan and survive for at least 10 days, during the policy term.

Life insurance a cash benefit amount if you die or are diagnosed with a terminal illness and are not expected to live longer than 12 months, during the policy term.

Life Insurance+, Critical Illness+ and Income Protection+ plans from Aviva have no cash in value at any time. If you stop paying premiums, cover will stop and we won't pay you any money back.

Getting the cover you need can be **easy and more affordable** than you think.
