

# Expert Select

Your guided approach  
to hospital choice

For employer use only.  
Not for use with policy members.

**Expert Select is our simple approach to accessing quality treatment. It takes some of the hassle and stress out of an already worrying situation.**

Backed by our clinical expertise and excellent customer service, our approach gives your employees extra peace of mind. They can rest easy knowing we're using our depth and breadth of knowledge to get a better outcome for them.

With Expert Select, you don't have to decide which hospital list will best suit your employees when you take out your policy. Instead, when they make a claim, we'll offer them a choice of an average of four to five hospitals nationally, which may include some from the largest hospital groups. All will be local to them, offering access to a number of specialists.

We base our recommendations on their diagnostic or treatment needs to make sure they get appropriate quality treatment options every time. This gives you and your employees an informed choice based on clinical need. Once they've had their treatment, we'll settle their eligible bills in full with the treatment provider. We guarantee no shortfalls on any eligible hospital or specialist charges for consultations, tests or treatment.
